Hi Paul and Mike

Please find content for Appendix 10. The attached is a complete presentation that I had used in discussions with the FRIENDS. I would imagine that we would at lease delete Slides 1,2, 7 & 8 for the final submittal. I left these in for now to facilitate your review.

Best

Joe

Joe,

Except for having a full-size Appx 10 map in hand, I've reviewed the amendment and am ready to approve it from a technical standpoint. Wayne will be working on the bond review sometime after he returns from leave. Once he

finalizes that, we will send out an official approval letter.

In the mean time, please review my previous email requesting the GIS data. We'll be needing that in the next couple of months to help with our overall bond review since the bond for this permit is due for periodic escalation in May.

If you have any questions, please let me know.

Thanks,
